

Please do not expand the LPFM service. I listen to K-LOVE which uses a FMM translator service. K-LOVE's serves keep me updated on news and local events as well as providing music that helps encourage me through my work day. If K-LOVE were to be displaced by an LPFM, many local events important to it's listeners would not be announced and people would not be able to support these events. K-LOVE is a service needed by the local communities to keep listeners focused on God and the positive. Two things that every community benefits from.
